FOR IMMEDIATE RELEASE

Hisco's Tommy O'Connor Named a Seika Top Performer for 2016

HOUSTON—**April 4, 2017**— Tommy O'Connor, vice president and zone manager for industrial distributor Hisco, has been named a top performing McDry representative for the Seika brand line of humidity controlled storage cabinets. Employee-owned Hisco serves principally the electronics, aerospace and defense, and medical device markets. O'Connor was one of three sales representatives recognized by Seika February 16 at IPC APEX EXPO 2017.

“We are thankful for our partnership with Seika,” said O'Connor. “Our customers' critical dry storage applications come first, and we appreciate increased opportunities to serve them in this way.”

For more than 45 years, Hisco has delivered value to customers through quality products, process solutions and local inventory. Today, the international branch network includes 38 stocking locations in three countries: the United States, HiscoMex in Mexico and HiscoCan in Canada. Hisco's Precision Converting facilities provide value-added fabrication, and its Adhesive Materials Group provides an array of custom repackaging. Hisco also offers vendor-managed inventory programs and specialized warehousing for chemical management, logistics services and cold storage. In addition to Seika, its supplier base includes manufacturing giants Alpha, 3M and Brady, to name a few. For more information, visit www.hisco.com.

Seika Machinery Inc. (SMI) is a subsidiary of Seika Corporation, Japan and member of the Mitsubishi Global Group. SMI provides electronics manufacturers with advanced machinery, superior materials and engineering services.
