# IMPROVE SURFACES WITH EASE.

### LASTS LONG. FINISHES STRONG.

Thick nonwoven fiber and integrated abrasive grains keep Scotch-Brite™ products performing like new throughout the life of the product.

Decade after decade, Part after part. There's one family of abrasives that's trusted to deliver repeatable results and fine finishes, and that's Scotch-Brite<sup>™</sup>. With roots in the past and an eye on the future, Scotch-Brite™ Nonwoven Abrasives are dedicated to uncompromising quality - just like you.

#### REPEATABLE RESULTS.

Whether you're cleaning, deburring or finishing, operators can easily achieve consistent, repeatable results with Scotch-Brite™ abrasives.

### UNCOMPROMISING QUALITY.

To get the best finish, you need the best abrasives. Scotch-Brite™ abrasives are continually improved to deliver uncompromising quality.

# THE SCIENCE BEHIND HIGH-QUALITY FINISHES.

# SCOTCH-BRITE™ NONWOVEN WEB TECHNOLOGY

The nonwoven web technology from Scotch-Brite™ is made with nylon that has been soaked in resin and abrasive mineral. The fibers and particles are bound together to form an open, three-dimensional structure. This construction provides spring-like action, which helps the product conform and bounce back without leaving an uneven finish.

Whether hand pads, discs, wheels or belts, the material is consistent all the way through. This means new abrasive mineral is exposed while you work, helping to extend the life of your abrasive product so that you can keep producing consistent finishes.

With Scotch-Brite<sup>™</sup> nonwoven abrasives, grade is generally used to describe the finish attributes — the coarser the grade, the more aggressive cut and finish.

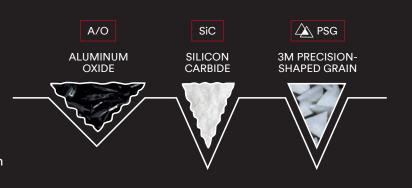

# WHAT'S THE DIFFERENCE BETWEEN THESE ABRASIVE MATERIALS?

**Silicon Carbide** is a synthetic mineral that is very sharp with a narrow shape, which wears down faster and is commonly used for low-pressure applications.

**Aluminum Oxide** is exceedingly durable, providing long life as the mineral breaks down at a slower rate — commonly used for a wide range of applications.

**3M Precision-Shaped Grain** is a triangular-shaped ceramic grain that is designed with sharp, angular structures that continuously fracture to form new sharp cutting edges.

3M.com/ScotchBriteAbrasives | 2 APPLICATIONS SYSTEMS AUTOMATION ABRASIVES TOOLS AND ACCESSORIES SAFETY

# **APPLICATIONS**

Scotch-Brite™ Nonwoven
Abrasives are designed with
conformable, high-strength
fibers that deliver quick and
consistent performance.
Each product brings a safe,
reliable solution to the job.
Which one is right for you?

SCOTCH-BRITE™ IS HERE FOR YOU EVERY STEP OF THE WAY.

### 1 CLEANING / SURFACE PREP

To achieve an attractive finished product, surface preparation is a crucial step in the metalworking process. Scotch-Brite™ products are designed to make quick work of paint removal, rust removal, scratch refinement and other surface preparation tasks.

Explore the products that will work for your application: Pages 4–5

# 3 BLENDING

Blending is the process of making different surface finishes appear more uniform. Scotch-Brite™ nonwoven products will leave a smooth, burr-free surface.

Explore the products that will work for your application: Page 7

### 2 DEBURRING

Deburring is the process of smoothing out the imperfections of rough/sharp edges. With metal burrs and edges on every stamped and lasered metal part, deburring is a key step. Scotch-Brite™ solutions offer a wide selection of deburring abrasives for metalworking projects of any size or shape.

Explore the products that will work for your application: Page 6

# 4 FINISHING / POLISHING PREP

Finishing is the process of improving the finish of a component, which then may be different from the original finish. Further blending may be needed so the finishes are more similar. Scotch-Brite™ products deliver consistent, repeatable finishes in many industries.

Explore the products that will work for your application: Page 8

# **SAFE OPERATING**

### STAY SMART, STAY SAFE, STAY WITH SCOTCH-BRITE™.

Always check to make sure the tool or machine does not run faster than the maximum operating speed (Max. RPM) of the consumable (disc, wheel, belt) or when applicable, the backup pad accessory.

Certain Scotch-Brite™ Nonwoven Abrasives do not have a speed rating. Therefore, the Max. RPM of the backup pad should be used. Always use proper backup pads with discs. Select a back up pad that is compatible with and the same size as the disc being used.

Exceeding the product's Max. RPM can cause it to break apart and cause serious injury.

#### SAFETY ICONS ARE LOCATED ON THE ABRASIVE, LABEL OR PACKAGE AND MAY VARY BY PRODUCT.

# ABRASIVES AUTOMATION AND ROBOTICS

3M offers abrasive solutions and expertise to help you automate a variety of material removal processes, from robotic grinding to robotic polishing and every step in-between.

Scotch-Brite<sup>™</sup> products are ideally suited for robotic applications as they can help increase productivity, consistency and cost savings in automated processes.

FOLLOW US INTO THE FUTURE

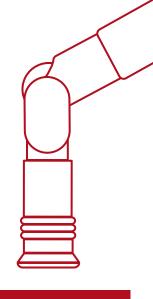

From abrasives to automation, 3M continues to innovate, reinvent and reimagine industrial solutions for the metalworking industry.

## CHOOSE THE RIGHT DISC FOR THE JOB.

Scotch-Brite™ Surface Conditioning Discs can help with your first step for cleaning, blending, deburring and finishing without undercutting the base material. The durable open web is designed to resist loading — producing a high cut rate, consistent finish and extending operation.

# MAKE TOUGH JOBS EASIER.

Scotch-Brite™ Surface Conditioning Discs can help you achieve a burr-free, paintable finish in fewer steps without damaging the base material. The nonwoven, open web and durable construction is designed to resist loading and greatly increase the life of the disc.

# SCOTCH-BRITE™ CLEAN AND STRIP XT PRO DISCS

## **CHOOSE YOUR CUT.**

#### **XT PRO**

Rust, paint, light mill scale removal

Maintains workpiece shape

Low sparking

Ideal for surface prep

Made with silicon carbide mineral

#### **BOTH**

Rapid coating removal and surface prep

Decreased chunking — extended life

Highly conformable

High speed rating

Quick change, spin-on thread

#### XT PRO EXTRA CUT

Heavy rust / rust pit removal without leaving divots

Thick paint and coating removal

Weld refinement and removing weld discoloration

Cuts to bare metal quickly

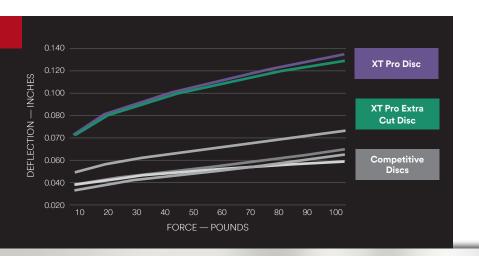

Ideal for adhesion prep

Made with aluminum oxide mineral

#### **CONFORMABILITY TEST**

# BETTER CONTACT FOR FASTER REMOVAL

Scotch-Brite<sup>™</sup> Clean and Strip XT Pro and XT Pro Extra Cut consistently demonstrate higher conformability.

# SPEED WITHOUT COMPROMISE.

Scotch-Brite™ Clean and Strip
XT Pro and XT Pro Extra Cut Discs
offer increased conformability
without undercutting strength.
Rated for high speeds, they spin
easily onto your angle grinder
with a quick-change threaded
hub — no accessories needed.

# SCOTCH-BRITE™ UNITIZED WHEELS

### HIGH PERFORMANCE AND DURABILITY.

Scotch-Brite™ Unitized Wheels are stacked, compressed layers of nonwoven web designed to bring abrasive to the part. Performance differences between unitized wheels can be attributed to mineral (aggressiveness) and density (hardness). The combination of these two characteristics and subtle variations determine if the wheel will cut more aggressively or will be more durable and less conformable.

Deburr and Finish Pro Unitized (DF) 🖎

EXL Deburring Unitized Wheel (EXL)

A: Aluminum Oxide

C: Ceramic

S: Silicon Carbide

#### **TECHNOLOGY**

# 3M PRECISION-SHAPED GRAIN AND NONWOVEN TECHNOLOGY

Scotch-Brite<sup>™</sup> Deburr and Finish Pro Unitized Wheels combine 3M Precision-Shaped Grain with our nonwoven technology, so you get a wheel that's soft enough to reduce defects but wears like iron without sacrificing the smooth feel and control you expect from Scotch-Brite<sup>™</sup> Wheels.

# COOL UNDER PRESSURE.

Scotch-Brite™ Unitized Wheels are manufactured with compressed, nonwoven fiber construction and uniform grain distribution. These rugged, fast cutting wheels produce great results on all types of metal, composites and glass.

Smaller wheels are designed for use on die grinders and angle grinders.

# SCOTCH-BRITE™ UNITIZED WHEELS

## Scotch-Brite™ Cut and Polish **Unitized Wheels**

Highly durable and aggressive to remove oxides, rusts and colors to produce a shiny or polished finish

Aluminum oxide mineral has high cut-rate, hardness and strength

Excellent for aggressive heavy duty blending and finishing with uniform results

Good replacement for rubber bonded wheels and small set-up wheels

**FIND YOUR GRADE AND SIZE** 

3M™ ROLOC™ SYSTEM

# Scotch-Brite<sup>™</sup> Laser **Braze Finishing Wheel**

3M Precision-Shaped Grain for long life, fewer wheel changes

Used for smoother more refined brazed surfaces that don't require as much removal/leveling

Very strong and flexible, for advanced force control

# Scotch-Brite<sup>™</sup> EXL Pro **Unitized Wheel**

Used for brazed joints with more variability/deeper pits and ripples

Predictable, consistent and smooth finish for life of wheel

Extra rugged construction for higher pressure finishing

### Scotch-Brite<sup>™</sup> Hand Pads 7447 Pro

Very fine grade aluminum oxide mineral cleans and finishes efficiently

Tightly graded abrasive particles for consistent, uniform scratch throughout life of the hand pad

Long lasting pad made with durable nonwoven nylon web is flexible enough to get into hard-to-sand places; Specially coated to minimize loading

Cleans, finishes and scuffs a wide variety of surfaces, offering supreme versatility

Can be used wet or dry and rinsed for repeated use

**FIND YOUR GRADE AND SIZE** 

MORE FORMS AVAILABLE

### Scotch-Brite™ Hand Pads 7448 Pro

Ultra fine finishing action outperforms steel wool for cleaning, blending, prepping and finishing on metal, wood, plastics and composites

Cuts faster and produces a more consistent finish than conventional nonwoven abrasive products

Long lasting pad is specially coated to minimize loading

Pad conforms to irregular surfaces and gets into corners without losing performance

Performs like steel wool grade 00 without shredding, rusting, or splintering

FIND YOUR GRADE AND SIZE

**ROLLS AVAILABLE** 

# SCOTCH-BRITE™ HAND PADS AND FLATSTOCK

# Scotch-Brite<sup>™</sup> Hand Pads 7447

Superior alternative to steel wool, wire brushes, and sandpaper

Use on wood, metal, plastics, ceramics, porcelain, rubber, or composites

Very fine grade aluminum oxide abrasive cleans, finishes, grains, denibs, defuzzes

TECH TIP: If you want 7447 in a roll / sheet / disc, try Scotch-Brite™ Clean and Finish Abrasive A VFN

#### **FIND YOUR GRADE AND SIZE**

## Scotch-Brite<sup>™</sup> Hand Pads 7448

High performance pads are packed with tightly graded abrasive mineral for more consistent, fast cut

Flexible pad cleans, blends and finishes where conformability is needed

Ideal for prepping surfaces for primer and color coat, general scuffing and cleaning

TECH TIP: If you want 7448 in a roll / sheet / disc, try Scotch-Brite™ Clean and Finish Abrasive S ULF

**FIND YOUR GRADE AND SIZE** 

# SCOTCH-BRITE™ HAND PADS AND FLATSTOCK

# Scotch-Brite<sup>™</sup> Durable Flex Hand Pads

Flexible pad cleans, blends and finishes where conformability is needed

Tightly graded abrasive mineral provides consistent, fast cut

Ideal for prepping surfaces for primer and color coat, general scuffing, cleaning and hand blending

Silicon Carbide Ultra Fine (S ULF) performs like steel wool grade 00; Aluminum Oxide Very Fine (A VFN) performs like steel wool grade 1

**TECH TIP:** Don't want a standard hand pad? Try a roll and tear off your perfect size!

**FIND YOUR GRADE AND SIZE** 

**ROLLS AVAILABLE** 

## Scotch-Brite<sup>™</sup> Heavy Duty Hand Pad 7440

Aggressive, durable pad for heavy cleaning, deburring and finishing

Very high density, super aggressive for quick stock removal

Withstands extremely heavy use on tough surfaces

Cuts fast to remove coatings and corrosion in demanding cleaning and finishing applications

**TECH TIP:** If you want 7440 in a roll / sheet / disc, try Scotch-Brite™ Cut and Polish Abrasive

# SCOTCH-BRITE™ FLAP BRUSHES

#### SELECT THE FLAP BRUSH FOR YOUR APPLICATION.

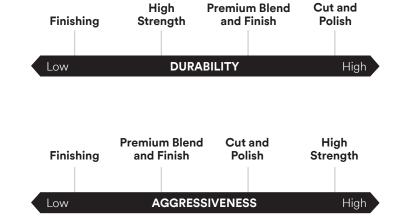

FINISHING
Ultra light duty cleaning and finishing operations.

CUT AND POLISH
Cleaning and finishing applications that require a more aggressive brush or a brighter finish.

PREMIUM BLEND
AND FINISH
Aggressive finishing and medium cleaning / deburring applications.

HIGH STRENGTH

Medium duty cleaning and finishing requiring a brush with longer life and more durability.

RECOMMENDED OPERATING SPEEDS			
Application	SFPM		
Decorative Finishing*	500 – 3,000		
Composites / Soft Materials	1,200 – 2,700		
Cleaning and Conditioning	2,000 – 5,000		
Prepolishing	2,000 – 7,000		
Oxide Removal	4,500 – 6,500		
Deburring	5,000 – 6,500		
Wood Sanding	500 – 2,500		
SFPM = Surface Feet Per Minute			

	FLAP BRUSHES
Core	Spindle Mount, 5/8–11 Quick Change, Fiberglass (varies on diameter)
Size	3/4" – 48"
Tool / Machine	Match and Finish Sander, Backstand, Die Grinder, Bench Motor

<sup>\*</sup>Finishing Flap Brushes should not be run over 3,500 SFPM

**TECH TIP** 

Increase density to improve life and durability. Most common industrial grinding lubricants, coolants, and/or compounds can be used with Scotch-Brite™ Brushes.

# CLEAN, DEBURR OR FINISH.

Scotch-Brite<sup>™</sup> Brushes offer versatility for cleaning, finishing and deburring metal, plastics, wood and more. Available in a wide range of grades and brush constructions to help you tailor brush performance to your specific application — do it all, faster and more consistently.

#### SCOTCH-BRITE™ FLAP BRUSHES

## Scotch-Brite<sup>™</sup> Finishing Flap Brush

Soft density and medium / fine / very fine abrasive grades produce brushed surfaces without compounds

Provides more surface contact than bristle-type brushes

Continuously supplies fresh abrasives for consistent, uniform finishes

Nonwoven web is load and heat resistant, enabling fine finishing results

**FIND YOUR GRADE AND SIZE** 

#### Scotch-Brite<sup>™</sup> Cut and Polish Flap Brush

Great for medium / heavy duty cleaning, deburring, polishing and finishing

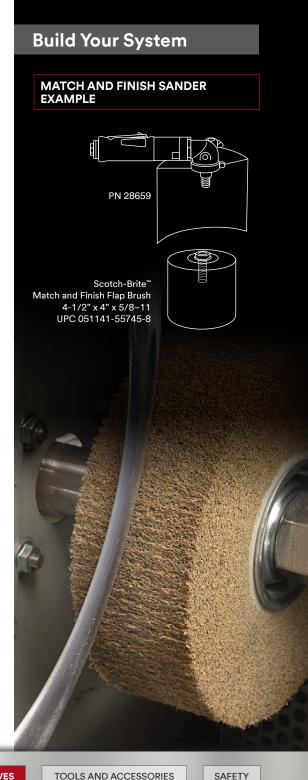

Open web is load resistant, enabling aggressive cleaning and bright finishing

Deburrs stamped or laser-cut parts

Conforms well on irregular / contoured surfaces without undercutting or damaging base material

**FIND YOUR GRADE AND SIZE** 

# SCOTCH-BRITE™ SURFACE CONDITIONING MOLDED ABRASIVES

#### SCOTCH-BRITE™ BRISTLE BRUSHES AND DISCS

Safer operation and conformability in contoured areas

#### Long life with consistent performance

Scotch-Brite™ Bristle Discs and Brushes last longer than most abrasives and provide the same finish and cut throughout their life. For productivity in automated procedures, there are fewer changeovers.

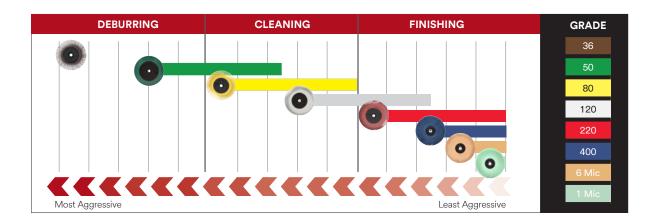

#### Conformability and more surface contact

Unlike most abrasives, Scotch-Brite™ Bristle products are flexible and conform to irregular surfaces. They require less manipulation by operators on parts. You can expect a consistent finish even on the most complex parts.

#### Safety

To help you meet increasingly tough safety standards, Scotch-Brite™ Bristle Discs contain no wire filaments. When replacing chemicals or compounds, they have the added benefit of not emitting harmful chemical vapors.

# MORE EFFECTIVE THAN WIRE BRUSHES

Scotch-Brite™ Bristle products contain 3M's patented long-lasting 3M™ Ceramic Abrasive Grain, which provide a fast, more uniform finish. This means that as the disc wears, fresh mineral is always exposed, delivering improved productivity and value.

#### SCOTCH-BRITE™ BRISTLE DISCS AND BRUSHES

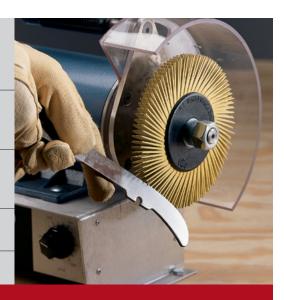

#### Scotch-Brite<sup>™</sup> Radial **Bristle Brushes**

Ideal for Robotic Deburring to quickly remove burrs and sharp edges in end-of-arm tooling operations

Conformability allows abrasive to stay in contact with complex-shaped parts in robotic processing

Maintains abrasive property throughout the life of the brush

#### FIND YOUR GRADE AND SIZE

#### Scotch-Brite<sup>™</sup> Radial **Bristle Discs**

Fast running disc removes paint, stains, adhesives, weld burns and heavy oxides from large areas

Conform to the part and clean without removing base material reducing damage and rework

Create an incredibly uniform finish even around protrusions, detail grooves, patterns and other hard to reach areas

**FIND YOUR GRADE AND SIZE** 

3M™ ROLOC™ SYSTEM

#### **Build Your System**

#### STRAIGHT — TYPE S (TS)

Rigid and very aggressive for cleaning and deburring, non-directional.

#### ANGLED — TYPE A (TA)

Rigid and very aggressive, similar to Type S but for smaller diameters, directional.

#### CURVED — TYPE C (TC)

Less aggressive and more conformable, directional.

# 3M OFFERS PERSONAL PROTECTIVE EQUIPMENT (PPE) TO HELP KEEP WORKERS SAFE.

#### **3M™** Reusable Respirators

3M provides a full line of reusable respirators to meet the needs of any work environment. Half or full facepiece reusable respirators help protect against both particles and/or gases and vapors.

#### 3M™ Aura™ Particulate Respirators 9300+ Series

Ergonomic, flat-fold, 3-panel design. Valved and unvalved models available. Respirators feature an innovative chin tab for easy adjustments and an embossed, sculpted upper panel to help reduce eyewear fogging.

### 3M<sup>™</sup> Ratchet Headgear H8A, with 3M<sup>™</sup> Clear Polycarbonate Faceshield

Provides optical clarity and high-performance durability in unpredictable environments that involve exposure to impact hazards and flying debris.

#### **3M™** SecureFit™ Protective Eyewear

Soft adjustable nose pads and dual injected temples help diffuse pressure over the ear to enhance frame comfort while not compromising the security of fit.

#### 3M™ E-A-R™ Flexible Fit Earplugs

Soft foam tip and flexible fitting stem allows for easy insertion into the ear. Conforms to the ear canal to help block out noise. The cord keeps earplugs readily available and helps keep foam ear tips clean between uses.

These eye and face protection products help provide limited eye and face protection. Misuse or failure to follow warnings and User Instructions may result in serious potential injury, including blindness or death. For proper use, selection and applications against flying particles, optical radiation and / or splash, see supervisor, read User Instructions and warnings on the package, or call 3M PSD Technical Service in the USA at 800-243-4630. In Canada, call Technical Service at 800-267-4114.

# ABRASIVE SOLUTIONS BY 3M. EVER FORWARD.

A finish you can feel. A finish you can see.

A finish unmatched.

#### WARRANTY / DISCLAIMER

Product Selection and Use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer's application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product and appropriate safety products, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.

Warranty, Limited Remedy, and Disclaimer: Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price.

Limitation of Liability: Except for the limited remedy stated above, and except to the extent prohibited by law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.
