VENDOR MANAGED INVENTORY

Hisco[®]
Integrated Solutions

Improve efficiencies and save up to 30% with Hisco vendor managed inventory.

Optimizing your supply chain through Hisco's Vendor Managed Inventory Solutions

Hisco's VMI solutions reduce cost, streamlines your supply chain, eliminates expiring material from reaching the floor, and increases productivity by bringing the factory floor to you.

Our wide range of VMI solutions are tailored to solve your critical issues allowing you more time to focus on production. We offer solutions from POU scanning, to vending machines, RFID to full integration with onsite personnel.

RFID SOLUTIONS

Hisco's RFID technology, powered by Xelgelgo, allows you to automatically identify, track and monitor inventory and related information throughout the entire supply chain with greater visibility and accuracy.

WORK IN PROGRESS TRACKING

- Boost visibility of your production process
- Predict and prevent work order backlog
- Eliminate the searching of work orders
- Increase customer satisfaction

CHEMICAL MANAGEMENT

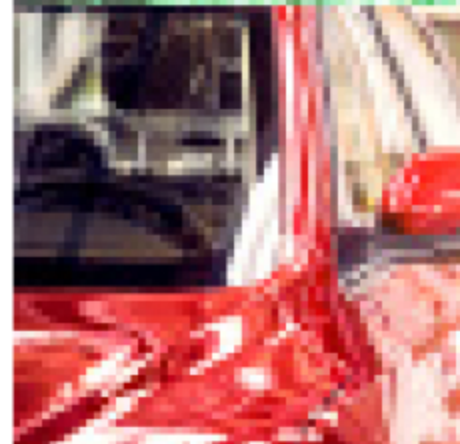

- Keep expired material off the floor
- Enable grab-and-go inventory
- Keep supply ahead of demand
- Conduct zero-downtime inventory audits

ASSET TRACKING

- Mitigate compliance risk by tracking calibration dates
- Automated alerts
- Locate missing assets in seconds
- Theft prevention

VENDOR MANAGED INVENTORY

- Automated inventory replenishment
- Track LOT control and expiration dates
- Grab-and-go inventory
- Reduce stockouts and emergencies

WHY HISCO VMI?

POINT-OF-USE BARCODE SCANNING

With a simple scan, product information is collected and identified for fast and accurate asset and materials tracking and management.

VENDING MACHINES

From simple dispensing systems to more versatile, web-controlled features, Hisco VMI vending solutions are designed to improve accountability and deter loss.

RFID ASSET TRACKING

Gain real-time visibility through RFID technology and tracking software to easily view stock levels, manage materials, locate misplaced assets and more.
